TOP-LEVEL MEDIUM THICKNESS AND MEDIUM SIZE CUTTING

ELECTRO STRONG TRIM PRO

Is the electric cutter designed to meet the daily cutting requirements of businesses with medium/large sizes from 165 to 320 cm and medium/high thickness.

The availability of intermediate sizes from 210 to 260 cm covers all possibilities within digital printing.

MAIN FEATURES

Electro Strong Trim Pro has a robust cutting head with double rotating blade made of hardened steel and fixed blade in painted stainless steel mounted on a reinforced cutting table.

It's designed to cut substrates up to 4,5 mm thanks to its carriage with variable speed and bidirectional operations.

The work surface is illuminated to facilitate the operator's work. Metal parts epoxy coated guarantee maximum resistance to cuts and scrapes.

The standard version includes the stand for ground positioning, the container for waste collection, movable reference guides, lamp over the cutting area, fluorescent wire to show the cutting line and sheet holder.
