

Queen & SpeedQueen

Work effortlessly having same setting quality all day long!

Our range of lightweight pneumatic eyelet machines offers shop owners an affordable way to finish their banners and print jobs effortlessly, reducing their production times and ensuring a constant quality setting during the finishing process.

With this piece of equipment bigger banners jobs will not be a problem anymore and you will be able to make them faster and safer than ever, as machines have a safety guard to prevent eyelet setting if there is any object underneath the die (such as operator's finger).
