

STEELTRAK

The perfect heavy-duty cutter for tougher materials

KEENCUT
THE WORLD'S FINEST CUTTING MACHINES

Consistent, accurate and efficient cutter for tough rigid boards. Robust construction for the toughest working conditions.

- Cuts heavy-duty materials easily
- Cuts materials up to 250cm or 98" (ST250 model)
- Consistent perfect cuts
- No dust, debris or static build up
- Heavy-duty construction to withstand tough use in a production environment
- Quick payback through reduced waste and cutting time
- Safety by design
- Quick fitting interchangeable tools
- Manufactured with premium quality materials
- Guaranteed for 5 years

Available in 3 sizes from 165cm to 250cm

Perfect for cutting ...

Semi-rigid materials

- PVC foam board up to 13mm
- Corrugated/fluted plastic (Correx) up to 13mm
- Foam centred board up to 13 mm
- Most other semi-rigid plastic materials
- Magnetic sheet up to 4mm

Rigid materials

- Aluminium composite (Dibond) up to 4mm
- MDF up to 3mm
- Cast acrylic or Plexiglas scoring up to 3mm
- Glass scoring up to 3mm

If your material is not in the list above we offer a free test cut service - for details please email sales@keencut.co.uk

"The best piece of equipment we have ever bought with a ROI of less than 6 months."

Cost-effective solution

Multi tool head

- Cutting blade, scoring blade and optional glass cutter. All permanently mounted for instant use.
- Uses off-the shelf blades - no costly specialist blades required.

Cut heavy-duty materials

Twin wheel cutter for tougher materials including Dibond and MDF

- Cuts 4mm Dibond or 3mm MDF in a single pass producing a clean, safe edge.
- Noiseless and dust-free.

Consistent perfect cuts

Unique pressure sensitive clamp

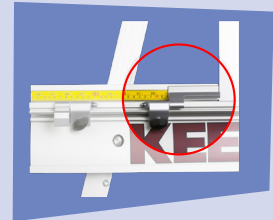

- Powerful clamping holds tough materials precisely for a perfect cut.
- Touch-sensitive control clamps delicate or printed materials gently without damage.

Perfect alignment - no fuss

- Keencut's sightline strip gives total accuracy with a single cut line.
- No set-up. No adjustment. No unpredictable, expensive lasers.

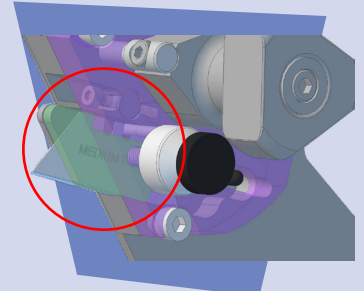

Achieve the same cut every time

- Quick set production stops for repeated use in a high volume production environment.

Safety by design

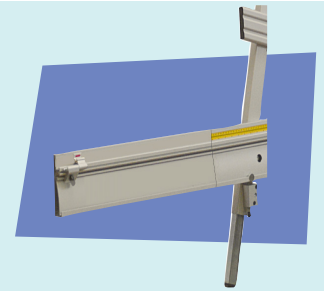

- Automatic blade disengagement.
- Blades securely mounted with a safety lock.
- Counterbalanced cutter head.

OPTIONAL EXTRAS AND ACCESSORIES

Squaring arm extension

Allows easy large board handling on both sides of the cut.

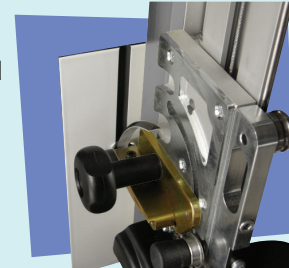

V-groove attachment

Fast and simple way to construct sign trays, self-standing displays, exhibition stands and boxes from printed or unprinted aluminium composite panel (ACP).

Glass cutting kit

Includes glass cutting ramp, 2 x wheels and a cutting block. Maximum cut length is 165cm (65").

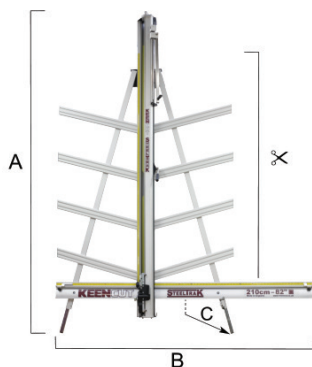

Free standing kit

Ideal for when wall space is limited or flexibility of machine placement is required. Bolts directly to the back of the machine to produce a rigid and stable free-standing unit.

DIMENSIONS

	ST165	ST210	ST250
